THE WEST END NURSERY

FIFTH AVENUE AND CENTER STREET

SAN RAFAEL - - - CALIFORNIA

To Correspondents

I take pleasure in presenting herewith my sixth annual Catalogue and Price-List.

It has been my endeavor, to list, as much as possible, only the very best and most satisfactory of both Fruit and Ornamental Trees and Plants. Whatever I am not able to grow on my own grounds, I procure from the most reliable Nurseries. My Nursery is located between Fifth Avenue and Center Street, about four blocks northwest from West End Station, San Rafael.

I warrant all trees and plants, to be healthy, and true to label, but having no control over them, after delivery, I do not GUARANTEE them to live and thrive, nor will I replace them, except any tree or plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase-price.

My customers are requested to notify me immediately of any error, that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all, who favor me with their order.

All orders delivered free in San Rafael and Ross Valley; a small charge for packing, to cover cost of material, will be made for all orders shipped by express or freight. All articles are at the risk of the purchasers, after being shipped.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills payable first of the month.

Landscape Gardening

Estimates for planting, remodeling old gardens, and laying out new grounds, will be cheerfully given on application.

RICHARD LOHRMANN

Conifers

Coniferous Trees are the grandest trees in existence. A good many of them are natives of the Pacific coast, therefore at home in our climate. Though the most expensive varieties are of rather slow growth, until well established in the ground, they will grow into the finest specimen trees for the lawn in a few years. Prices are for plants, measuring 1 to 3 fet. Quotations for larger plants on application.

Baccata fastigiata(Irish	\$2.00

Evergreen Trees and Shrubs

Broadleaved Evergreens vary in size from the largest trees to the smallest shrubs; unlike the coniferous Evergreens, whose flowers are insignificant, most of these excel in brilliancy and floriferousness, others through their shining berries and foliage. These plants give our California garden, and Parks their distinctive feature.

Deciduous Trees and Shrubs

The best street and avenue trees are decidedly deciduous trees; they will give the necessary shade in summer and admit sunshine in winter. In this class are also the most gorgeous spring and summer blooming shrubs. Deciduous weeping trees are beautiful specimen trees for the lawn.

Hardy Perennials

Herbaceous plants are indispensable for filling out and planting amongst shrubbery, in the rock garden, for the old-fashioned perennial border, etc. Most varieties, after once planted, will live and bloom without much attention, for many years. Prices are for field grown plants.

DAHLIAS

1916

RICHARD LOHRMANN

THE WEST END NURSERY

SAN RAFAEL

CALIFORNIA

MARIN  JOURNAL

To My Customers:

The following list of Dahlias comprises the cream of numerous varieties in commerce. They have been selected for their superiority in purity of color, perfection of form, length of stem, continuous blooming, etc.

Referring to the descriptions in this list, there ought to be made a certain allowance for variation, caused by different soils and climatic conditions.

To be successful with Dahlias, they ought not to be planted before May, and taken up again in fall after the first heavy frost, and stored away in a dry place.

Prices are for divided field grown roots, pot grown bulbs, or green plants after May 1st, either kind will give equally good results, in fact, well-rooted plants out of 2½ pots are often preferred by experienced growers. I usually ship all orders after April 1st; if wanted earlier kindly state so, when ordering.

Dahlia plants and roots can be sent by mail, if so desired, but I strongly advise, to have them sent by express; at least for larger orders.

Terms:—Cash with order, or in advance of shipment; no C. O. D. orders accepted, on account of the perishable nature of plants.

I warrant all roots and plants, to be healthy, and true to label, but having no control over them, after delivery I do not **guarantee** them to live and thrive, nor will I replace them, except any plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase-price.

My customers are requested to notify me immediately of any error, that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all, who favor me with their order.

I beg to draw my customers special attention to my own introductions, which were planted and exhibited at the **Panama-Pacific International Exposition in San Francisco**; the same are marked with the initials R. L.

Abbreviations: C—Cactus; D—Decorative; Sh---Show; Pae--Paeonia flowering; F--Fancy.

Dahlias

- AIDA, R. L.** D
 Dark maroon large perfect flowers
 on rigid upright stems, carried high
 above the foliage..... 50cts.
